Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Mary Anne Combs 1602 Airport Rd Marion, NC 28752-3882 (828) 559-0110

Protect the consumer, not big business. That is your job.
